Papercut Mobility Setup for iPhone or iPad

One-time Setup: Install the Printer Profile on your iPhone or iPad

Papercut Mobility allows you to touchless print by releasing the print job from a Blueprint print queue using a mobile device.

Install the printer profile on the mobile device before printing.

1. In Safari, navigate to https://ypps.yale.edu/mobileprint/ios/install
2. Select Allow, then Close.
3. Open the Settings app. Select Profile Downloaded, then Install.
4. Select Install, then Install.
5. Select Done.

* You must be on the Yale Secure Network
How to add the Papercut PrintRelease icon to your device’s home screen

You can add the Papercut Print Release icon to your iOS device’s home screen for easy access.

1. In Safari, navigate to https://ypps.yale.edu/mobileprint/release/login.
2. Click the Send icon.
3. Select Add to Home Screen.
4. Select Add.
5. The PrintRelease icon will be added. You can rename this to Papercut if desired.
