Printing to the RIS Platemaker from Mac OS X

Click here to obtain PPD for RIS Platemaker:
http://www.yale.edu/printdrivers/downloads/drivers/SDPEco.ppd.sit

First you must add SPDEco.ppd to the following folder on your Mac OS X machine:
/library/printers/PPDs/Contents/Resources/en.lproj

Next, open printer setup utility.

Select IP Printing - use LPD Protocol

(instructions continued on next page)
